

Shamrock Boutonnieres

Shamrock Templates

Print our templates, then trace the shamrock shapes onto construction paper in shades of green. Cut out with scissors.

Boutonnière Instructions

Follow our diagram steps, twisting your floral wire into a stem. Attach a paper shamrock to the end of each stem with a hot glue gun. Glue on a small square of construction paper to hide the wire. Bundle together a few stems with decorative ribbon, then pin them to guests or use in your décor.
